Attachment Parenting is not more challenging. In fact, I'd say it's easier. I was a new single mom for about a week before I tried babywearing. That first week without babywearing, I attempted to do dishes and laundry while my baby screamed on the floor, and I was near tears in utter hopelessness. Then I tried the sling my doula lent me.

## **What Attachment Parenting is Not - Mothering**

While growing up without a mother in the home suggests that a child may have difficulties in his psychological, emotional and social development, these difficulties don't have to define who the child is and what he can accomplish throughout his life, and they don't mean that the child can't become a successful adult, despite his early experiences without a parent in the home.
