Second, many of the scientific advances credited to Islam were actually "borrowed" from other cultures conquered by the Muslims. The algebraic concept of "zero", for example, is erroneously attributed to Islam when it was, in fact, a Hindu discovery that was merely introduced to the West by Muslims. In truth, conquered populations contributed greatly to the history of "Muslim" science until gradually being decimated by conversion to Islam (under the pressures of dhimmitude).

Myth: Islam and Scientific Discovery

Its Muslim population is expected to rise from 16.4 million in 2010 to 18.6 million in 2030. The growth rate for the Muslim population in Russia is projected to be 0.6% annually over the next two decades. By contrast, Russia's non-Muslim population is expected to shrink by an average of 0.6% annually over the same period.

Muslims wanted to be really clean and not just splash themselves with water, so they made soap by mixing oil (usually olive oil) with “al-qali”, a salt-like substance. This was then boiled to achieve the right mix, left to harden and used in the hammams, the bath houses.

10 Things You Use Every Day That Are Invented by Muslims ...

Islamic mathematicians such as Al-Khwarizmi, Avicenna and Jamshīd al-Kāshī made advances in algebra, trigonometry, geometry and Arabic numerals. Islamic doctors described diseases like smallpox and measles, and challenged classical Greek medical theory.

Science in the medieval Islamic world - Wikipedia

CORRECTIONS: Language has been amended throughout this article to more accurately characterize the contributions of Muslims, which in some cases represent significant improvements to previous technologies rather than the invention of those technologies outright. A previous version identified Arabic numerals as an Islamic invention; they are of Hindu derivation.

8 Great Modern Innovations We Can Thank Muslims For | HuffPost

Between 1986 and 1991, Australia’s Muslim population experienced a growth rate of 35 percent primarily due to immigration. During this period, nearly 100,000 Muslims arrived in Australia, mostly from the Middle East . This was followed by a further doubling of the Muslim population by 2011.
