Do NOT, repeat NOT run standard Cool Power 15% in the YS engine. PLEASE at least run a heli blend if you go with Cool Power (or

File Type PDF Os 120 Engine Manual

else add some extra oil)! The Heli blends have higher oil content. IIRC standard Cool Power is 17% oil, and the heli mixes are closer to 20% - 22%. Personally I run a YS 20/20 blend and the engines love it.
