PACU flowsheet - PACU Nursing - allnurses

PACU nurses must be vigilant for signs and symptoms of emergence delirium and have a safety plan in place. Acting preemptively is imperative in these circumstances. 11. PACU nurses may advocate for a reduced assignment until their patients are fully awake. A one-to-one nurse-to-patient ratio is recommended, along with continuous verbal reassurance.

Safety priorities in the PACU : Nursing2020

Share evidence about standardized report sheets with OR and PACU nurses and staff, network wide. Share evidence about how a standardized report sheet will improve RN satisfaction. Share results/ findings of the ISBAR sheet from our trial study. Distribute ISBAR worksheets throughout the network's operating rooms.

Standardized Handoff Tool for OR/PACU Nurses

The "post-anesthesia record" might typically be thought of as the Post-Anesthesia Care Unit (PACU) clinical documentation. Since the PACU is an extension of what happens in the operating room, similar components are required to make the system work; i.e., interfaces to physiological monitors and software implementations that achieve clinical documentation.
