Fuel Economy

The Tesla Roadster is reported to get 135 miles per gallon. And the Chevy Volt plug-in hybrid...that depends. If the EPA uses tests designed for electric cars to evaluate the Chevy Volt, the ratings could exceed 100 mpg. But if the government agency classifies the Volt as a hybrid and tests it as such, the EPA rating would drop to about 50 mpg.

I am getting really confused over the DDR3 memory options. I currently have 4GB(2x2GB) of Corsair Dominator 1600MHz with 8-8-8-24 Timings. I am wanting to upgrade to 8GB as I have started doing video editing and the software is running a bit sluggish and memory usage is very high. It would cost me about £50 for another 4GB of the Dominator or £45 for 8GB of Corsair Vengeance rated at 9-9-9 ...

Child left scene of confusion - Crossword Buzz

The answer is (A), though several academics have discovered that many people get answers to questions like this wrong. In case you were one of them, here's a quick explanation. If you were going to drive 100 miles, it would take 8.3 gallons in the Suburban and only 6.7 gallons in the Escalade, so you're saving 1.6 gallons for every 100 miles driven.
