A security crackdown on anti-government protests followed the vote. However, EU foreign policy chief Josep Borrell said there was "clear will to adopt those sanctions." Russia also has drawn international criticism for speedily approving a COVID-19 vaccine, and some Western experts said it cut corners during testing.

Russia's Putin urges end to sanctions to boost world economy

Poland Economic Outlook. October 6, 2020. The economic scenario likely improved in Q3, after GDP fell at a record pace in Q2 due to Covid-19. Industrial production hit a three-month high in August on the back of a pickup in manufacturing output.

Poland Economy - GDP, Inflation, CPI and Interest Rate

The economy of Poland is an industrialized, mixed economy with a developed market that serves as the sixth largest in the European Union (EU) and the largest among the former Eastern Bloc members of the EU. Since 1990, Poland has pursued a policy of economic liberalization and its economy was the only one in the EU to avoid a recession through the 2007–08 economic downturn.

Economy of Poland - Wikipedia

Of the former Soviet Union republics, excluding Russia, Ukraine was far and away the most important economic component, producing about four times the output of the next-ranking Soviet republic. Its fertile black soil generated more than one-fourth of the overall Soviet agricultural output, and its farms provided substantial quantities of meat, milk, grain, and vegetables to other republics.
