below is the syntax of the run command. `grunt> run [-param param_name = param_value] [-param_file file_name] script` Example. Let us assume there is a file named `student.txt` in the `/pig_data/` directory of HDFS with the following content. `Student.txt`

Apache Pig - Grunt Shell - Tutorialspoint

Interactive Mode (Grunt shell) – You can run Apache Pig in interactive mode using the Grunt shell. In this shell, you can enter the Pig Latin statements and get the output (using Dump operator).
Batch Mode (Script) – You can run Apache Pig in Batch mode by writing the Pig Latin script in a single file with `.pig` extension.

Apache Pig - Execution - Tutorialspoint

Races will begin with the Diaper Dash and continue based on child's age. Participants will be allowed to have one parent on the "course." Parents may walk or run along with younger entrants (5 and under). Age groups may be run in a series of heats to accommodate all participants.

Piglet | Flying Pig Marathon

Some follow up: I moved the exports to my `.bash_profile` and I also modified the `JAVA_HOME` definition to avoid issues with the space in "Program Files" (I made a junction in windows to map the java folder into `c:/java_cygwin/`). At that point I could run Pig in local mode and get the Grump shell.

Pig without Hadoop on Windows 7 - Stack Overflow

A piglet had a newborn baby photoshoot and we're obsessed with the results! Oklahoma-based photographer Cashlie White, who typically takes photos of families, newborns and weddings, photographed a piglet named Dynamite who is just over 2 weeks old. "I usually don't do pictures of pigs," White told ...
