Taking care of your office finances and bookkeeping needs has never been as easy with accounting books, which can be used in place of software or alongside accounting software programs to help you balance company budgets and oversee expenses. Ruled lines and columns help keep your calculations neat and easy to read. Consider using check registers to record transactions made only in cash.

The sales journal, sometimes referred to as the sales day-book, is a special journal used to record credit sales. The sales journal is simply a chronological list of the sales invoices and is used to save time, avoid cluttering the general ledger with too much detail, and to allow for segregation of duties.

A general ledger is the master set of accounts that summarize all transactions occurring within an entity. The general ledger contains all of the accounts currently being used in a chart of accounts, and is sorted by account number. Either individual transactions or summary-level postings from subsidiary-level ledgers are listed within each account number, sorted by transaction date.
