SANYO Ductless Systems - Richair Comfort Solutions The Sanyo HVAC Mini Split Air Conditioning  
system and ductless AC units rely on energy efficient heat pumps to heat and cool. Sanyo units are  
sized for residential and commercial units. They provide cooling and heating between 9,000 BTU's  
and 42,000 BTUs an hour.

The vast majority of mini split units require 208/230 volt service, but there are some that will work with 115 volts. Always make sure that your system is connected to the proper voltage. Even if the system is correctly wired to the proper voltage, issues can still occur depending on your electric service.
