This lesson focuses on MS-ESS1-3 (Earth & Space Science) which states that students will analyze and interpret data to determine scale properties of objects in the solar system. Students will work

towards mastery of this standard as they manipulate a scale model of the Sun and Earth. Some important skills in this lesson are Science & Engineering Practices 1,2,and 8.

Sixth grade Lesson Scale Model of The Sun & Earth ... While lesson plans may have fallen out of favor in some districts, replaced by online curriculum management systems, the lesson planning process is still an excellent opportunity for collaborative planning and development. When co-planning, it's important to have a common framework for lessons that enlists the expertise of classroom teachers and campus curriculum guides.
