BATTERY CHARGING is accomplished by converting 120 volt A.C. into 24-30 volts D.C. The Tecumseh charger is a two step charger that supplies correct voltage until the overcharge voltage level is achieved, and then a lower "float" voltage completes the charge. Faster charging and extended battery life are a result of this charge method.

My Homelite 20 in 24 volt cordless lawn mower won't start. I've charged the battery until the light on the power cord turned green, but nothing happens when I install the battery. The battery gauge on the handle shows 100% charged. Is there something I'm suppose to do to activate it the first time? I've plugged in the key on the handle too. Thanks
