Re: Danfoss - ACC - Embraco - Tecumseh  
Agreed, ACC are rubbish, Aspera and  
Embraco, Danfoss are ok, but don't stand  
up too well in hot aussie condition +35C  
ambients all run hot enough to fry an  
egg. That's usually because condensers  
aren't high ambient.

**Danfoss - ACC - Embraco - Tecumseh**  
Electrolux are quite good, and Zem  
being an offshoot of Electrolux (read that  
somewhere) they seem to be good too.  
Very quiet and powerful.

Tecumseh/L'unite Hermetique seem to  
be quite noisy and unreliable for what  
we do with them, maybe they're good  
for something ;) Embraco are good from  
what ppl are saying, and that Chilly1  
uses them too.
