With Cambridge University Press we can support the implementation of new curricula through resources and teacher training programmes. Curriculum changes need to become thoroughly embedded in the education system, but this can only happen if we are sympathetic to the cultural context in which these changes take place.

The Cambridge Guide to Blended Learning for Language Teaching makes the case that it is pedagogy, rather than technology, that should underpin the design of blended learning programmes. The book is organised into five sections: Connecting Theories and Blended Learning; Implications for Teaching; Rethinking Learner Interaction; Case Studies; The Future of Blended Learning.
