The Ethics Of Human Cloning

The Ethics of Human Cloning. By Wayne Jackson. "Cloning" has been a volatile topic in the news of late. In England, for example, the House of Lords recently voted 212 to 92 in favor of promoting experiments which will attempt to clone human beings -- even though a conglomerate of religious leaders (Roman Catholics, Protestants, Jews, Muslims, and Sikhs) petitioned the politicians to pause and study the ethical issues involved in such an ambitious enterprise.

The Ethics of Human Cloning : Christian Courier

Cloning is often confused with other advances in bio-medicine and bio-engineering - such as genetic selection. It cannot - in itself - be used to produce "perfect humans" or select sex or other traits. Hence, some of the arguments against cloning are either specious or fuelled by ignorance.

The Ethics of Human Cloning: Kass, Leon, Wilson, James Q ...

There also exists controversy over the ethics of therapeutic and research cloning. Some individuals and groups have an objection to therapeutic cloning, because it is considered the manufacture and destruction of a human life, even though that life has not developed past the embryonic stage.

Cloning - Ethical controversy | Britannica

Bioethics. Bioethics Resources. The Ethics of Human Cloning and Stem Cell Research. "California Cloning: A Dialogue on State Regulation" was convened October 12, 2001, by the Markkula Center for Applied Ethics at Santa Clara University. Its purpose was to bring together experts from the fields of science, religion, ethics, and law to discuss how the state of California should proceed in regulating human cloning and stem cell research.

The Ethics of Human Cloning and Stem Cell Research ...

The Ethics of Reproductive Cloning I turn first to the ethics of reproductive cloning,and then to cloning for biomed- ical research.The case for banning human reproductive cloning is not difficult to make,at least for now.Most scientists agree that it is unsafe and likely to lead to serious abnormalities and birth defects.

The Ethical Implications of Human Cloning

Advocates of cloning respond that it's now easier to pick out defective embryos before they're implanted into the mother. In 2005, the United Nations attempted to pass a global ban on human cloning, but was unsuccessful due to disagreements over whether therapeutic cloning should be included.

Human cloning requires us to think about the nature of a human embryo, the moral status of the human embryo, what is required by respect for human embryos, and whether the distinction between 'spare' embryos (that is, those left over from in vitro fertilization or IVF) and embryos deliberately created for research purposes has moral significance.

Ethics of Human Cloning - Oxford Scholarship

Much of the debate about the ethics of cloning for research and therapy turns on a basic disagreement about how we should treat early human embryos. As it is currently done, the isolation of embryonic stem cells involves the destruction of embryos at the blastocyst stage (day five after fertilization, when the embryo consists of 125-225 cells).

Cloning (Stanford Encyclopedia of Philosophy)

In bioethics, the ethics of cloning refers to a variety of ethical positions regarding the practice and possibilities of cloning, especially human cloning. While many of these views are religious in origin, some of the questions raised by cloning are faced by secular perspectives as well.

Ethics of cloning - Wikipedia

of humans, and called for federal legislation to prohibit anyone from attempting (during the next three to five years) to create a child through cloning. Even before the commission reported...

The Ethics of Human Cloning

Cloning can also be abused by some unscrupulous persons to produce clones without the permission of the person concerned, since they can create a clone using a small part, even hairs from another person's body. Moreover, every person has rights and this raises the issue of rights of the clone who has no separate identity.

Ethical issues in human cloning | Gradeniners.com

Kass believes that cloning humans is another step in the degradation of humanity. He asserts that it's a natural progression in the assault on the traditional structure of the family, espoused by feminists, reproductive rights enthusiasts, gay liberationists and other cultural sophisticates.
