Dual Federalism (1789-1945) Dual federalism describes the nature of federalism for the first 150 years of the American republic, roughly 1789 through World War II. The Constitution outlined provisions for two types of government in the United States, national and state.

Federalism: History of Federalism | SparkNotes

Federalism is a system of government in which political power is divided between a national government and state governments, each having their own substantive jurisdiction. In the United States of America, this refers to the devolution of powers between the central government and the fifty states.

An Analysis of the Political System of Federalism in the ...

A first wave of modern studies, inspired in part by the experience of American federalism, tended to emphasize a dichotomous contrast between federal and unitary systems and to portray federal institutions mainly as growth-promoting, redistribution-restraining political arrangements which facilitate democracy in large diverse polities. 4 More recent analyses, building upon the findings of comparative studies, relax the stark distinction between federal and unitary systems (Rodden, 2004 ...
