'The Presence' was another awesome example of John Saul's ability to bring a story to life and leave me questioning the possibilities. Full of beautifully described scenery, possibilities of the unknown, great characters and scenarios that were full of surprises. The storyline was well written and the way it played out kept me glued to the pages.

One of the best horror novels I've read to date, The Presence is a bona fide bone-chiller. And I applaud John Saul on his delivering such a great effort. The plot is interesting and fast-moving. And the two lead characters-a mother and her son-are nicely written. I enjoyed this novel, but I wouldn't advise reading it at night before bed.
