The Quantum Self Danah Zohar

In The Quantum Self, Danah Zohar argues that the insights of modern physics can illuminate our understanding of everyday life -- our relationships to ourselves, to others, and to the world at large. Guiding us through the strange and fascinating workings of the subatomic realm to create a new model of human consciousness, the author addresses enduring philosophical questions.

The Quantum Self - Danah Zohar - Google Books Judaism understand both the interconnectedness of everything the oneness of the universe and the role of individual free will. The second se,f can sound more like quantum metaphors than quantum explanations but there are many good references to Heidegger, Freud, Marx, Descartes, Plato and more.

DANAH ZOHAR THE QUANTUM SELF PDF - 87 PDF a Day
Zohar's speculation on quantum immortality alone is worth the price of the book. How quantum reality generates free will and creativity in the individual is a true gift to all who survive to the "Creative Self" chapter. Near the end of the book Zohar brings us to understand that ". . . mind is relationship and matter is that which it relates.

ourselves. Guiding us through the strange and contradictory world of quantum mechanics, Danah Zohar argues that a more participative view of our relationship with the universe is essential if we are to discover our true ...

Books | Danah Zohar

Zohar thinks that the self does change all the time, but quantum interference makes each new self sprout from the old selves. Wave functions of past selves overlap with the wave function of the current self. Through this "quantum memory" each self reincarnates past selves. Zohar's quantum self is a "fluid" self, not a static self.
