Controller Operation The GreenKeeper 212 controller has three modes of operation: Automatic, Manual and Off. In the Automatic mode the controller tracks the time and day and operates the automatic watering schedules. The Manual mode enables the watering programs to be started and controlled manually at any time.

Irrigation timers and controllers are the brain of your system, telling your sprinklers what day, what time and exactly how much to water. Toro sprinkler timers are as easy to program as an alarm clock.

## **Irrigation Timers, Sprinkler Timers, Irrigation ... - Toro**

The three main components of every automatic sprinkler system are the timer, zone control valves and sprinklers. The timer is the brain of the system, telling the control valves when and how long to supply water to the sprin-klers. The sprinklers direct and control the water applied to the lawn and plants.

...

Toro sprinkler timers provide automated watering of your lawn or garden. A Toro sprinkler timer provides hands-free, scheduled watering for a lawn or garden. Using a central control, you can program the timer to electronically open or close valves to send water to specific zones within your irrigation system at scheduled times.
