Instruction on HOW TO Reset the Honda TPMS

TPMS, or tire pressure monitoring systems, are a mildly controversial feature of some modern cars. While it's nice to have quick access to the current PSI readings of your tires from the comfort of your driver's seat, some manufacturers (hello, Honda!) have a history of TPMS problems that turn the system into more of a headache than just getting out of your car and

2012 Honda TPMS

According to my owners manual, all I have is a low pressure indicator and the TPMS light which indicates a fault. There are about 180 miles and ~10 start/drive/shutdown cycles on the tires so far. I just bumped the pressures up to 38 from 36 all around so I'll give them another week to find themselves.

How to Reset TPMS | Honda Odyssey Forum

The Honda MFG got away with the TPMS issues. Civic 2013 does not have TPMS calibration/Reset functions. But the manual has said even you replace the tires, hit a curb or low tire pressure, the system will trigger TPMS. I think the government needs to review this pattern.
