### **VOLVO 740 1989 - wiring diagrams**

No rims from other Volvo models can be used on the 740. Do not mix tires of different design, as this could negatively affect overall tire road grip especially during slippery road conditions! Studded tires should be run-in 300-600 miles (500-1000 km) during which the car should be driven as smoothly as possible to give the studs the opportunity to seat properly in the tires.
