Fish product flow can follow various channels from the fish producer including fisherfolk and aquaculturalist to the final consumer and can involve varying number of stages. Therefore, the fish market was divided into four main stages: the producer stage, the wholesaler stage including processing, the retailer stage, and the consumer stage including the export and institutional consumer markets.

In question 5(a-b), most of the candidates could not define fish stocking but they were able to mention the fishing gear used in capture fisheries. Also, majority of the candidates were able to describe the methods used in the processing and preservation of fish as well as state the steps involved in smoking of fish as required in 5(c)(i-ii).
