Dishwasher | DoltYourself.com

I have a whirlpool dishwasher model DU1145XPBA. The pots & pans, normal and some times the light wash lights blink. The dishwasher does not respond to any buttons being pushed. I replaced the thermal fuse, tried resetting the panel. If I can get the lights to stop blinking, it's only for a couple hours.

Whirlpool dishwasher blinking lights - DoltYourself.com ...

Whirlpool Troubleshooting. Our Whirlpool dishwasher repair manual can help! The same things tend to fail in the same designs. Why not save yourself a lot of time, hassle and money, and just go there first? Why are some dishwashers so bloomin' sensitive to food left on the dishes, when it seems like others could double as a wood chipper?
