Cristina Redko, Ethos, In Will to Live, João Biehl combines critical public health, ethnography, and even a mini epidemiological survey, studying AIDS therapies up, down, and sideways. . . . The running commentary from major decision-makers in the novel Brazilian approach to AIDS provides both insights and rather transparent post facto justifications for the state's regulatory practices.

### Will to Live: AIDS Therapies and the Politics of Survival ...

Live focuses on the rise of AIDS antiretroviral therapies (hereafter ARV) in Brazil. As in the case of Vita, in Will to Live Biehl tends not to articulate explicit theoretical frameworks, preferring to allow his analysis to emerge from detailed studies of persons, institutions, and ideas. Nonetheless, he does at times pause to offer more

government statistics, AIDS mortality in Brazil fell by 70%. In Will to Live: AIDS Therapies and the Politics of Survival, anthro-pologist Joa"o Biehl simultaneously traces the larger significance of this astonishing effort and its diverse implications for the lives of ordinary Brazilians.

### Will to Live: AIDS Therapies and the Politics of Survival

The management of HIV/AIDS normally includes the use of multiple antiretroviral drugs in an attempt to control HIV infection.There are several classes of antiretroviral agents that act on different stages of the HIV life-cycle. The use of multiple drugs that act on different viral targets is known as highly active antiretroviral therapy (HAART).HAART decreases the patient's total burden of HIV ...
