### screen resolution problem for windows xp

But my problem still is the quest will not allow me to set a resolution higher than the host, and I don't know why. I can turn on scale mode and drag the window larger, but my chances of hitting exactly 1920x1200 are next to nothing, so I just want to go into Display Properties and set the resolution to 1920x1200, but that size is not listed (only lists up to 1680x981 if I maximize the window).
